

Carvedilol: Constructing JSON Elements for ITK Bot

The JSON structure for Carvedilol includes the following common fields for each indication:

- **indication:** The specific health condition for which Carvedilol is prescribed.
- **last_use_date:** The last date the medication was used, broken down into **month**, **day**, and **year**.
- **currently_taking_checkbox:** Indicates whether the patient is currently taking the medication ("On" or "Off").
- **first_fill_date:** The first date the medication was prescribed, broken down into **month**, **day**, and **year**.

Some conditions may include additional specific fields relevant to the indication.

Instructions The JSON element for the drug must be nested under "drugs":{}.
